

Canada Hills Community Association (CHCA) members,

The August 4th Town Council election is critical to maintaining our property values, particularly through the candidates supporting our community center, and golf courses. Three Town Council seats are open for election this cycle. We are encouraging all CHCA members to vote for the candidates of their choice.

As your board members, we have been intimately involved for the past two years with the town council by voicing our concerns for CHCA property values and the value to all of Oro Valley about the community center and golf course operations.

We are individually supporting the two incumbent candidates who are running for re-election: Bill Rodman and Steve Solomon.

Both Bill and Steve supported the community center and golf courses and worked with the other council members to establish a viable plan for their continued operations in the future.

Of the remaining three remaining candidates, we believe Mo Greene of Carmel Pointe has been a consistently supportive community member and will best represent the Canada Hills Community Association. We will cast our third vote in support of Harry "Mo" Greene.

Early Ballots for the August 4 Town Council election will begin to arrive this Thursday, July 9. Please VOTE and keep our community's progress on track! This is the critical election! A November Town Council election will only occur if less than three candidates receive 50% of the votes plus one vote.

For further information on all the candidates please read their interviews in recent issues of The Explorer and the Oro Valley Voice.
